

Mena Pedestrian Bollard

Model Number

MEPB-41

The Wishbone Mena Pedestrian Bollard is the perfect blend of safety, durability, and modern design, making it an exceptional choice for public spaces. Engineered with precision and crafted from high-quality materials, it enhances pedestrian safety while adding a touch of sophistication to any environment. Thoughtfully designed features, such as concealed fasteners and optional LED lighting, further showcase its innovative craftsmanship. Built from marine-grade aluminum, the Wishbone Mena Bollard is specifically designed to withstand the most demanding environmental conditions, including heavy rain and corrosive salty air. Its sturdy construction provides long-lasting performance while serving as a highly visible and reliable boundary for pedestrians. What sets the Wishbone Mena apart is its customizable design. The inner panel allows for easy branding updates, accommodating logos and designs to match evolving branding strategies. The exterior can also be customized, transforming the bollard into a multifunctional tool for safety and brand promotion. Whether you're improving pedestrian safety in a busy urban center or enhancing the aesthetics of parks and plazas, the Wishbone Mena Pedestrian Bollard is a smart, versatile, and stylish choice. With its durability, adaptability, and sleek design, it's a lasting investment in safety and visual appeal.
