

# Ridgeline Curved Bench

Model Number

RLCB-6-BA (6ft)

Inspired by the clean lines of our popular Skyline series, the Ridgeline Curved Bench brings a fresh take on modern outdoor seating with enhanced form and function. Designed with a minimalist backrest for comfort and style, this bench introduces subtle yet smart upgrades that elevate both appearance and performance. The legs are positioned outside the frame, providing a bold architectural element while doubling as built-in skate deterrents—blending safety with design. The inset lumber is precision-gapped along the curve, creating a smooth, uniform visual that complements the bench's gentle arc. The robust, low-maintenance marine-grade aluminum frame features a Super Durable Powder Coated finish, engineered to withstand the rigors of municipal environments. Resistant to corrosion, fading, and wear, it ensures long-lasting performance and visual appeal in even the most demanding outdoor settings. Built with versatility in mind, the Ridgeline Curved Bench can be customized to match specific radii, making it ideal for custom site layouts and circular gathering spaces. Six Ridgeline Curved Benches with a 6-foot radius can be combined to create a complete 12-foot diameter circle, offering endless possibilities for dynamic seating configurations. The Ridgeline Curved Bench is also part of the Ridgeline product family, which includes backless benches, coffee tables, planters, and waste receptacles—allowing designers to create cohesive, coordinated outdoor environments. Whether used on its own or as part of a larger seating configuration, the Ridgeline Curved Bench delivers a thoughtful balance of design, comfort, and long-term durability.

## Material Specifications

Marine Grade Aluminum Frame  
Stainless Steel Hardware  
Super Durable Powder Coating  
100% Recycled Plastic Slats  
Western Red Cedar  
Accoya Modified Pine  
Hardened Bamboo

## Customized Solutions

Custom Powder Coating  
(Setup Charges May Apply)  
Custom Radius Matching  
INST-1.5 Stainless Steel Bolt-Down Kit

## Recycled Content

Recycled Content by Weight: 47%  
100% Recyclable
